DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a light emitting device having, inter alia, the plurality of first power supply lines made from a same material as the plurality of gate signal lines; and one of the plurality of first power supply lines and one of the plurality of second power supply lines being connected through a contact hole (claims 32 and 33); or one of the impurity regions being electrically connected with the power supply line and another one of the impurity regions being electrically connected with the first electrode (claims 34-39). The remaining claims 40-49 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 32 through 49.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
